

ART PLAN

Summary Statement:

The Southern Regional Art Program recognizes the individuality of each student and provides opportunities for him/her to explore and discover. Students' self-esteem is fostered through acquiring technical skills and expertise through cognitive and affective investigation. The skills gained through arts education are transferable to other academic disciplines, career, and personal life.

Learning Goals:

Understand and apply arts elements and principles, materials, media, techniques, technology and processes to produce artistic products.

Develop the critical thinking skills of observation, description, analysis, interpretation and evaluation of artistic content and form.

Develop important life skills including problem solving, critical thinking, technological proficiency, creativity, and collaboration while acquiring knowledge and skills that increase aesthetic awareness and have cross-curricular

Learning Objectives:

Produce an original body of artwork in one or more art mediums that demonstrates mastery of visual literacy, methods, techniques, and cultural understanding.

Use the formal elements of design to create proficient works through analysis and synthesis.

Formulate criteria for arts evaluation using the principles of positive critique and observation of the elements of art and principles of design, and use the criteria to evaluate works of art from diverse cultural contexts and historical eras.
